EXAMINER'S AMENDMENT

This Office action is responsive to the amendment filed on January 11, 2005.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Cancel claims 32-38 (non-elected invention).

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney, Mr. Indranil Chowdhury, on February 23, 2005.

3. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 3, 10-14 and 16-21, directed to the species of embodiment II are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 26-31 and 24-25, directed to other species are remain withdrawn from consideration since these claims do not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional

application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Thus, claims 1-23 and 39 are allowed and renumbered as 1-24, respectively.

4. The following is an examiner's statement of reasons for allowance: the cited arts fail to teach or render obvious the structural interconnect among the claimed limitations as claimed in claim 1, such as *the inorganic overcoat includes side walls over each of the contact pad surfaces; and each of the contact pads having an added conductive layer on the metallization, the added layer having a conformal surface adjacent the chip, including peripheral portions of the overcoat, and a planar outer surface covering the side walls of the inorganic overcoat and defining a flat outline substantially parallel to the chip surface, the outer surface suitable to form metallurgical bonds without melting; and a non-conductive adhesive layer over the overcoat.*
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Luan Thai whose telephone number is 571-272-1935. The examiner can normally be reached on 6:30 AM - 5:00 PM, Monday to Thursday.
